Distribution authority no. ____/ ____

Name of holder _____

Solar bonus scheme biannual report to the regulator under the *Electricity Act 1994*

Section 44A of the *Electricity Act 1994* (the Act) requires Distribution Authorities to provide Solar Bonus Scheme data for the 44-cent tariff rate to the Regulator within 28 days after 30 June and 31 December each year.

The information provided will meet the requirements under the Act and will be used to monitor the overall performance of both operating tariff rates against key indicators such as the number of systems connected to the Scheme, the number of customers connected, and the total generation capacity of customers connected to the Scheme.

The report also collects data on the credit amount paid to customers with qualifying generators participating in the Scheme, itemised by retailer.

Please return the completed report to:

Solar Bonus Scheme
Department of Energy and Public Works
GPO Box 2457
Brisbane QLD 4001

Or electronically via email:

Energy.EDClientMatters@epw.qld.gov.au

No later than 28 January and 28 July each year.

For enquiries contact:

Telephone: 13 43 87

Email: Energy.EDClientMatters@epw.qld.gov.au

This form is available in PDF format from the Department of Energy and Public Works website at www.epw.qld.gov.au.

Note: If there is insufficient space on the form to answer any question, please attach a statement giving full details.

Annual Report to the Regulator for the six-month period ending (please tick):

30 June 20____ **Or** 31 December 20____

Distribution Authority No. ____/ ____
