

Program for making Emissions Reduction Plans

The following program for making Emissions Reduction Plans is published under section 11 of the *Clean Economy Jobs Act 2024*.

This is version 2.0 of the program, which includes updated Ministerial responsibilities and publication dates.

The plans detailed in the below table will have effect until 2035, but may be reviewed, updated and/or replaced before expiry.

The Treasurer, Minister for Energy and Minister for Home Ownership will be responsible for making the Net Zero Roadmap and Energy plan by 31 December 2025.

The remaining plans will be published by 30 September 2026. To deliver these plans, the Treasurer, Minister for Energy and Minister for Home Ownership will work with Ministers with portfolio responsibilities for mining and petroleum, land transport, agriculture, environment, land, state development, and building standards, as relevant.

Plan	Description
Net Zero Roadmap	To provide an overview of Queensland's objectives and priorities for achieving net zero by 2050.
Energy	Emissions reduction actions for electricity production and transmission.
Resources	Emissions reduction actions for the coal, petroleum, gas and minerals industry.
Agriculture and land	Emissions reduction actions for on-farm, and other land and sea-based emissions and sequestration.
Transport	Emissions reduction actions for transport, including networks and infrastructure.
Industry	Emissions reduction actions for heavy industries, manufacturing and waste.
Built environment	Emissions reduction actions for residential and commercial buildings, and non-transport infrastructure.
